

# Fish Gallery

The Fish Gallery houses a large collection of specimens and models of aquatic animals and amphibians ranging from sea-horse to gharials, alligators and turtles.

The **Fish Gallery** in the **Indian Museum, Kolkata**, is a significant part of the museum's Natural History section. It showcases a wide variety of fish species, offering insight into the rich aquatic biodiversity of India and beyond.

## Overview of the Fish Gallery:

- **Location:** The Fish Gallery is located within the Natural History section of the Indian Museum, one of the oldest and largest museums in India.
- **Exhibits:** The gallery houses an extensive collection of preserved fish specimens. These include both freshwater and marine species, ranging from common varieties to rare and

endangered species. The exhibits are displayed in glass cases with detailed descriptions, providing information on the habitat, behavior, and biological characteristics of each species.

### **Notable Displays:**

- **Ganges River Dolphin:** Although a mammal, the Ganges River Dolphin is often highlighted in the Fish Gallery due to its unique status and the importance of the Ganges River in India's ecology.
- **Sharks and Rays:** The gallery features a variety of sharks and rays, showcasing the diversity of these species found in Indian waters.
- **Exotic Species:** The gallery also includes specimens of exotic fish from other parts of the world, illustrating global aquatic biodiversity.

**Educational Value:** The gallery serves as an educational resource, offering insights into ichthyology (the study of fish). It is particularly valuable for students, researchers, and anyone interested in marine biology and aquatic ecosystems.

- **Interactive Displays:** In recent years, the museum has introduced interactive displays and digital kiosks to enhance visitor engagement, providing a more in-depth understanding of the exhibits.
- **Conservation Message:** The gallery also emphasizes the importance of conservation, with sections dedicated to endangered species and the threats they face due to overfishing, pollution, and habitat destruction.

### **Visiting Information:**

- **Address:** The Indian Museum is located at 27, Jawaharlal Nehru Road, Park Street area, Kolkata, West Bengal, India.

- **Timings:** The museum is typically open from 10:00 AM to 5:00 PM on weekdays, and 10:00 AM to 4:30 PM on Saturdays and Sundays. It is closed on Mondays and certain public holidays.
- **Entry Fee:** There is an entry fee to visit the museum, which varies for Indian and foreign nationals. There may also be additional charges for photography or videography.
- **Facilities:** The museum offers various visitor amenities, including a cafeteria, restrooms, and a gift shop. Guided tours are also available.
- **Accessibility:** The museum is wheelchair accessible, and efforts have been made to accommodate visitors with disabilities.

Visiting the Fish Gallery offers a fascinating glimpse into the aquatic world, making it a must-see for those interested in the natural sciences.
